Profile

Experienced Flutter developer with a strong background in building high-quality, cross-platform mobile applications for iOS and Android. Skilled in creating intuitive and responsive user interfaces, implementing state management solutions such as GetX, and Provider, and integrating backend services with RESTful APIs and Firebase. Adept at optimizing app performance, debugging issues, and delivering seamless user experiences. Proficient in using Git for version control, and experienced in deploying apps to the Google Play Store and Apple App Store. Passionate about staying up-to-date with the latest Flutter features and mobile development trends.
I'm not just a coder; I'm passionate about creating meaningful tech experiences. If you're looking for a versatile and results-oriented developer who thrives in collaborative environments, let's connect.
